What this standard covers

This standard specifies the basic requirements for the construction of the grounding wire crimping, the inspection of materials and tools, the cleaning and cutting of the grounding wire, the pipe-passing and crimping operation of the grounding wire connecting pipe and the tensile clamp, and the quality inspection of the crimping. Wait. This standard is applicable to the crimping construction of conductors and ground wires with a nominal section below 800mm² as specified in GB/T 1179 and GB/T 20141.

Document data

International classification (ICS): 29.240.20.

Chinese classification (CCS): F20.

Estimated length of the Chinese original: 25,255 words.

Supersedes the earlier edition DL/T 5285-2013.
