What this standard covers

This standard specifies the technical requirements, test methods and inspection rules for electric actuators (hereinafter referred to as electric actuators) of power station valves. This standard applies to the motor-driven various types of shut-off valves, regulating valves and baffles and other electric actuators.

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F24.

Estimated length of the Chinese original: 27,298 words.

Supersedes the earlier edition DL/T 641-2005.
