What this standard covers

This standard specifies the ash, glass and ceramic high-temperature viscosity characteristic test the principles and methods and ash slagging characteristic viscosity index RN evaluation. This standard applies to high temperatures, ash, glass and ceramics Determination of dynamic viscosity of the melt.

Document data

International classification (ICS): 75.160.10.

Chinese classification (CCS): F23.

Estimated length of the Chinese original: 17,143 words.

Supersedes the earlier edition DL/T 660-1998.
