What this standard covers

This standard specifies the technical requirements and inspection rules for electric iron fittings for malleable iron. This standard is applicable to black gold malleable iron castings of electric power fittings cast in sand molds or sand castings with the same thermal conductivity and sand type. Other cast-cast electric power fittings for black heart malleable iron can be used as reference.

Document data

International classification (ICS): 29.240.20.

Chinese classification (CCS): K47.

Estimated length of the Chinese original: 7,754 words.

Supersedes the earlier edition DL/T 768.1-2002.
