What this standard covers

This standard specifies the classification, structure, marking, technical requirements, test methods, inspection rules, packaging, transportation and storage, installation recommendations and instructions for use of all-media self-supporting optical cables. This standard is applicable to all-media self-supporting optical cable communication lines of overhead high voltage transmission system. It is also applicable to all-media self-supporting optical cable communication lines in high-altitude salt lake area, lightning-prone zone and large span.

Document data

International classification (ICS): 33.180.10.

Chinese classification (CCS): M30.

Estimated length of the Chinese original: 31,364 words.

Supersedes the earlier edition DL/T 788-2001.
