What this standard covers

This standard provides an efficient exchange of data for a common interface. This specification takes into account the exchange of the provided valid data network (LAN) and across the LAN delay caused. DL/T 890. 404 from the Object Management Group (OMG) for industrial data acquisition system Data Access (DAIS DA) specification derived. OMG DAIS DA relies on data access facility (DAF) and OPC Data Access (DA) and other norms. OMG DAIS DA is a CORBA as a platform to platform model (PSM), while the OPC DA is a Microsoft COM as a platform for PSM. DL/T 890. 404 and implementation in a technology-independent way to describe these PSM function [that is, as a platform-independent model (PIM)].

Document data

International classification (ICS): 27.100.

Chinese classification (CCS): F21.

Estimated length of the Chinese original: 18,192 words.

Adopted international standard: IEC 61970-404-2007, IDT.
