What this standard covers

This standard specifies the impulse voltage divider systems, measuring instruments and measuring systems throughout the various tests and impulse voltage measurement of specific implementation methods. This standard applies to impulse voltage measuring system needs to do all kinds of impulse voltage test and measurement.

Document data

International classification (ICS): 17.220.20.

Chinese classification (CCS): N26.

Estimated length of the Chinese original: 58,519 words.
