1 Foreword

DY/T 13-2025 was issued by National Film Administration on 31 December 2025 and took effect the same day.

The DY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 27 pages in English translation.

2 Scope Preview

This standard specifies the overall framework, functional requirements, and data interfaces for the operation and service information of film public service screenings, and describes the corresponding measurement methods. This document is applicable to guiding the construction and acceptance of film public service operation support information systems for cinema chains, and also to guiding local management departments in constructing and accepting data service information systems for film public service screening content, task
