What this standard covers

This standard specifies the mercury vapor cold vapor atomic absorption mercury analyzer technical requirements, test methods, inspection rules and signs, packaging and other requirements. This standard applies to mercury vapor 253.7 nm wavelengths strongly absorbed light radiated cold atomic absorption mercury analyzer. That mercury vapor cold vapor atomic absorption mercury analyzer (hereinafter referred to as the instrument). Is the kind of instrument design, manufacture, testing, use and develop appropriate product standards common technical basis.

Document data

International classification (ICS): 17.1.

Chinese classification (CCS): D84;N91.

Estimated length of the Chinese original: 9,975 words.
