1 Foreword

EJ/T 20201-2018 was issued by State Administration of Science, Technology and Industry for National Defense on 18 January 2018 and has been in force since 1 May 2018.

The EJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements of wire intercom communication system for physical protection of nuclear material and nuclear facilities (hereinafter referred to as "wire intercom communication system") in fixed places. This standard is applicable to the design and acceptance of wire intercom communication system in the physical protection project of nuclear material and nuclear facilities in constructed, extended and renovated fixed places.

EJ/T 20201-2018 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 313 other EJ/T standards.

In this catalogue, EJ/T standards carry edition years from 1992 to 2018.

3 Normative references

GB 4208-2008 - Degrees of protection provided by enclosure (IP code)

GB 8702 - Controlling limits for electromagnetic environment

GB/T 15408 - Technical requirement of power-supply for security & protection system

GB/T 30148-2013 - Security alarm equipment - EMC immunity requirements and test methods

GB 50057 - Code for design protection of structures against lightning

GB 50343 - Technical code for protection against lightning of building electronic information system

GB 50348-2004 - Technical code for engineering of security and protection system

EJ/T 1054 - Physical protection of nuclear material and nuclear facilities

4 About this standard

Sector: Nuclear Industry Standard (Recommended)

Issued by: State Administration of Science, Technology and Industry for National Defense

English translation: about 15 pages (approximate)

5 Related standards

Standards on related subjects:

JB 2293-1978 - Wind tunnel test method of radiator of automobile and tractor

6 Classification and status

Prefix EJ/T: recommended standard.
