1 Foreword

EJ/T 299-2018 was issued by State Administration of Science, Technology and Industry for National Defense on 18 January 2018 and has been in force since 1 May 2018.

The EJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

https://chinastandards.org/standards/ej-t-299-2018

The document runs to 15 pages in English translation.

2 Scope Preview

EJ/T 299-2018 is filed under Chinese Standard Classification D14, in the field of mining.

This catalogue holds 312 other EJ/T standards without an ICS number.

In this catalogue, EJ/T standards carry edition years from 1992 to 2018.

3 About this standard

Sector: Nuclear Industry Standard (Recommended)

Issued by: State Administration of Science, Technology and Industry for National Defense

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

MT/T 1091-2008 - Standard for exploration and evaluation of hydrogeology, engineering geology and environment geology in coal beds

DZ/T 0207-2002 - Specifications for glass-grade silicon materials, ornamental stone, gypsum, chrysotile asbestos, wollastonite talc and graphite exploration

DZ/T 0213-2002 - Specifications for metallurgic, chemical limestone and dolomite, cement-materials mineral exploration

5 Classification and status

Chinese Standard Classification (CCS): D 14

Prefix EJ/T: recommended standard.
