1 Foreword

FZ/T 01188-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 July 2026.

The FZ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 4 pages in English translation.

2 Scope Preview

This standard specifies the test method for determining the tensile strength of fiber flocks. This standard applies to uniform, sheet-like fibrous batting (and products made therefrom) with a thickness of ?3 cm, manufactured from textile fibers such as plant, animal, or chemical fibers, intended for purposes including thermal insulation, heat insulation, or shock absorption; other types of batting may refer to this standard.

FZ/T 01188-2025 falls under ICS 59.080.99, in the field of textile and leather technology.

This catalogue holds 1,720 other FZ/T standards in that field.

In this catalogue, FZ/T standards carry edition years from 1991 to 2025.

3 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 4 pages

Chinese original: about 6,620 characters

4 Classification and status

International classification (ICS): 59.080.99

Chinese Standard Classification (CCS): W 04

Prefix FZ/T: recommended standard.
