### What this standard covers

This Standard specifies a method for determining the photoelectric method of cashmere fiber length and length distribution parameters. This Standard applies to carding cashmere. This Standard does not apply to Article cashmere, cashmere yarn removed from the loose fibers, does not apply to a mixture of cashmere and other fibers. The average length of cashmere fibers similar to other animals may also refer to the use of this standard.

### Document data

International classification (ICS): 59.080.01.

Chinese classification (CCS): W20.

Estimated length of the Chinese original: 5,552 words.
