Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces FZ/T 24013-2010 "Durable antistatic cashmere knitwear", and the main technology compared with FZ/T 24013-2010 the content changes are as follows.

---Adjusted the scope of application and added a description of the non-application scope of this standard (see Chapter 1, Chapter 1 of the 2010 edition);

--- Added the content of Chapter 3 terms and definitions;

---Adjusted the antistatic performance requirements according to the product organization structure, and adjusted the relevant indicators according to the actual production and the results of testing and verification (See 4.3 and Table 1, 3.3 and Table 1 of the 2010 edition);

---Added 6.3 comprehensive judgment;

---Adjusted the number and expression of some chapters.

This standard was proposed by the China National Textile and Apparel Council.

This standard is under the jurisdiction of the Cashmere Products Subcommittee of the National Textile Standardization Technical Committee (SAC/TC209/SC9).

Drafting organizations of this standard. Inner Mongolia Erdos Cashmere Group Co., Ltd., National Wool Textile Product Quality Supervision and Inspection Center (North Beijing), National Engineering Technology Research Center for Cashmere Products.

1 Scope

This standard specifies the terms and definitions, technical requirements, test methods, inspection rules, packaging and labelling of durable antistatic cashmere knitwear.

Chi et al.

This standard applies to durable antistatic cashmere knitwear with antistatic properties.

This standard does not apply to coated fabrics that have undergone antistatic treatment in the finishing process.

This standard does not apply to cashmere knitwear for infants and young children aged 36 months and under.

2 Normative references

The following documents are indispensable for the application of this document. For dated reference documents, only the dated version applies to this article. For undated references, the latest version (including all amendments) applies to this document.

GB/T 8629-2017 Household washing and drying procedures for textile testing GB/T 12703.3 Evaluation of electrostatic properties of textiles Part 3: Charge GB 18401 National Basic Safety Technical Code for Textile Products GB 31701 Safety Technical Code for Infant and Children Textile Products FZ/T 73009 cashmere knitwear

3 Terms and definitions

The following terms and definitions apply to this document.

Durable antistatic cashmere knitwear durableantistaticcashmereknittinggoods Cashmere knitwear that keeps antistatic properties even after repeated washing.

4.1 General

Technical requirements include safety requirements, quality requirements, and antistatic performance requirements.

4.2 Security requirements

The safety of durable antistatic cashmere knitwear should meet the requirements of GB 18401 or GB 31701.

4.3 Quality requirements

The quality requirements of durable antistatic cashmere knitwear should meet the relevant regulations of FZ/T 73009.

4.4 Antistatic performance requirements

See Table 1 for the antistatic performance requirements of durable antistatic cashmere knitwear.
