Foreword

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

Instead of the standard FZ/T 33008-1999 "linen mat." Compared with the standard FZ/T 33008-1999 The main changes are as follows.

- Expanding the scope of the standard (see Chapter 1, Chapter 1 of the 1999 edition);
- Supplementary adjusted normative references (see Chapter 2, Section 2 of the 1999 edition);
- Adjust the format requirements, unified internal quality requirements are listed in Table 1 (see Table 1, 1999 edition of the Table 1, Table 2);
- Increase the fiber content of the assessment requirements (see Table 1);
- Increasing the first-class goods and qualified products breaking strength assessment (see Table 1);
- Increase the formaldehyde content, pH value, odor, biodegradable aromatic amine dyes assessment requirements (see Table 1);
- The quality classification of products as superior products, first-class goods and qualified products (see 42, 1999 version 4.1.);
- Raised some color fastness assessment indicators (see Table 1, Table 2, 1999);
- Increased the size of the rate of change for Excellence washing positive deviation assessment (see Table 1, Table 1 of the 1999 edition);
- An increase of some assessment indicators of qualified products (see Table 1);
- Modify the sampling plan (see 62, 1999 edition of 6.3.3.);
- Increased Inspection classification (see 6.1);
- Original standard Appendix A is amended as informative appendix.

The standard proposed by China Textile Industry Association.

This standard by the National Standardization Technical Committee Textile flax (flax) Textile Technical Committee (SAC/TC209/SC4) centralized.

This standard was drafted. Intertek (Tianjin) Quality Technology Services Co., Ltd., Heilongjiang Province Textile Products Quality Supervision and Testing Center, the Black Dragon Jiangsu Province Textile Industry Trade Company, Jilin Province, textiles, garments, leather products testing center, Heilongjiang Province Institute of Standardization.

1 Scope

This standard specifies the linen mat varieties, specifications, requirements, test methods, inspection rules, signs and packaging.

This standard applies to identify quality meters and above in 500g of pure linen mat, flax content of more than 50% of the blended and interwoven or Quality flax mat.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.
