What this standard covers

This standard specifies the terms and definitions, requirements, test methods, inspection rules, signs, packaging, transportation and storage of natural moisture-absorbing and quick-drying hemp textiles. This standard applies to pure hemp (ramie, flax, hemp) or blended or interwoven products containing 30% or more of hemp (ramie, flax, hemp) with natural moisture absorption and quick-drying properties. Hemp textiles with hemp fibers such as apocynum and jute as the main component can be implemented by reference. This standard does not apply to hemp textiles that have been finished with moisture absorption and quick drying functions or added with moisture absorption and quick drying functional fibers.
