What this standard covers

This standard specifies the classification and identification, technical requirements, inspection rules, marking, packaging, transportation and storage of cationic dyeable modified polyester pre-oriented yarn, and describes the test methods. This standard is applicable to modified polyester pre-oriented yarns with a nominal linear density of 45.0dtex to 1000.0dtex, a single filament linear density of 0.5dtex to 10.0dtex, and circular cross-sections that can be dyed with cationic dyes. Other specifications and types of cationic dyes can be dyed. Modified polyester pre-oriented yarn can be used as a reference.

Document data

International classification (ICS): 59.060.20.

Chinese classification (CCS): W52.

Estimated length of the Chinese original: 9,962 words.

Supersedes the earlier edition FZ/T 54066-2013.
