What this standard covers

This standard specifies the terms and definitions of conductive nylon 6 drafting yarns, product identification, technical requirements, test methods, inspection rules and marking, packaging, transportation and storage requirements. This standard is applicable to conductive nylon 6 draft yarns with circular cross section made of composite spinning with a bus density of 16.0 dtex to 90.0 dtex and a single yarn linear density of 3.0 dtex to 90.0 dtex. Other types of conductive nylon 6 draft wire can be used with reference.

Document data

International classification (ICS): 59.060.20.

Chinese classification (CCS): W52.

Estimated length of the Chinese original: 7,784 words.
