What this standard covers

This standard specifies the terms and definitions, product identification, technical requirements, test methods, inspection rules and signs, packaging, transportation, and storage requirements for recycled colored polyester drawn filaments. This standard is applicable to regenerated colored polyester drawdown yarns with a bus density of 55 dtex to 700 dtex, a monofilament linear density of 1.5 dtex to 6.0 dtex, a circular section, and a three-leaf shaped section. Other types of recycled colored polyester drawn filaments can be used as reference.

Document data

International classification (ICS): 59.060.20.

Chinese classification (CCS): W52.

Estimated length of the Chinese original: 8,894 words.
