What this standard covers

This standard specifies the terms and definitions, product identification, technical requirements, test methods, inspection rules and requirements for marking, packaging, transportation and storage of recycled non-colored polyester pre-oriented yarns. This standard applies to pre-oriented regenerated colored polyester yarns with a bulk density of 70 dtex to 1100 dtex, a linear density of 1.0 dtex to 10.0 dtex of monofilament, a circular cross-section and pre-spinning coloration. Other types of recycled colored polyester pre-oriented yarn can be used as reference.

Document data

International classification (ICS): 59.060.20.

Chinese classification (CCS): W52.
