What this standard covers

This standard specifies the terms and definitions, classification and labeling, technical requirements, test methods, inspection rules and requirements for marking, packaging, transportation and storage of recycled polyester bulked filament (BCF). This standard applies to recycled polyethylene terephthalate (PET) as raw material, with a total density of 800 dtex to 2000 dtex, a monofilament linear density of 5 dtex to 20 dtex, a three-lobed section, glossy and semi- Matte natural color and colored recycled polyester bulked filament (BCF). Other specifications of recycled polyester bulked filament (BCF) can be used as a reference.

Document data

International classification (ICS): 59.060.20.

Chinese classification (CCS): W52.

Estimated length of the Chinese original: 10,197 words.
