What this standard covers

This standard specifies the terms and definitions, product classification, marking, technical requirements, inspection rules, marking, and packaging of stitch-woven nonwoven fusible interlinings, and describes the corresponding test and inspection methods. This standard applies to natural white, brightened, and colored stitch-woven nonwoven fusible interlinings produced using polyester and nylon as the main raw materials and through hot rolling processes.

Document data

International classification (ICS): 59.080.99.

Chinese classification (CCS): W13.

Supersedes the earlier edition FZ/T 64040-2014.
