What this standard covers

This standard stipulates the technical requirements, test methods, inspection rules, packaging, marking, storage and transportation of polytetrafluoroethylene (abbreviated as PTFE) materials for coal-fired boiler flue gas filtration. This standard applies to coal-fired boiler flue gas filtration with PTFE fiber, fabric, microporous membrane and other materials.

Document data

International classification (ICS): 59.080.30.

Chinese classification (CCS): W59.

Estimated length of the Chinese original: 16,135 words.
