What this standard covers

This standard specifies the product composition and specifications, technical requirements, test methods, inspection rules, marking, packaging, transportation and storage requirements of chitosan fiber nonwovens processed by hot air method. This standard applies to non-woven fabrics that are mixed with chitosan fibers with a nominal content of 10% to 30% and low-melting-point short fibers, and are melted and consolidated by hot air penetration.

Document data

International classification (ICS): 59.080.30.

Chinese classification (CCS): W59.
