What this standard covers

This standard specifies the terms and definitions, product specifications and codes, technical requirements, test methods, inspection rules, packaging, storage, transportation, and marking of recycled polyester filament spunbond needle-punched nonwoven geotextiles. This standard applies to filament spunbond needle-punched nonwoven geotextiles made from 100% recycled polyester through spinning, web laying, and needle punching reinforcement.

Document data

International classification (ICS): 59.080.70.

Chinese classification (CCS): W59.

Estimated length of the Chinese original: 10,180 words.
