What this standard covers

This standard specifies the terms and definitions, basic types and basic parameters, requirements, test methods, inspection rules and signs, packaging, transportation and storage of electronic needle selectors for computerized flat knitting machines. This standard is applicable to electronic needle selectors (hereinafter referred to as "needle selectors") for computerized flat knitting machines, which are provided with commands by a computer control system and control the knitting needles through mechanical needle selection.

Document data

International classification (ICS): 59.120.40.

Chinese classification (CCS): W96.
