What this standard covers

This standard specifies the terms and definitions, type and specification parameters, requirements, test methods, inspection rules of warp knitting fiber spreading and warping machines, as well as product marking, packaging, transportation and storage. This standard is applicable to warp knitting fiber spreading warping machines in which untwisted tow yarn raw materials such as carbon fiber, glass fiber, aramid, etc. are evenly wound on segmented warp beams after fiber spreading.

Document data

International classification (ICS): 59.120.40.

Chinese classification (CCS): W96.
