What this standard covers

This standard specifies the terms and definitions, structure, requirements, test methods, inspection rules, marking, packaging, transportation, and storage of a hammer-type fabric snag performance tester. This standard applies to the design, production, and testing of hammer-type snag testers for knitted and woven fabrics and other easily snagable fabrics (excluding mesh fabrics, non-woven fabrics, and tufted fabrics).

Document data

International classification (ICS): 59.120.99.

Chinese classification (CCS): W98.
