

**INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GA 1766-2021

**Specifications for acceptance of video and image information
system for public security**

公安视频图像信息系统验收规范

(English Translation)

Issued on: January 1, 1970

Implemented on: January 1, 1970

Issued by: Ministry of Public Security

Table of Contents

Preface	
1 Scope	
2 Normative references	
3 Terms and Definitions	
4 Acceptance Conditions	
4.1 Basic conditions	
4.2 Acceptance materials	
5 Accepted Organization	
6 Acceptance Implementation	
6.1 Construction Acceptance	
6.2 Technical acceptance	
6.3 Data Review	
7 Acceptance conclusion and rectification	
7.1 Acceptance conclusion	
7.2 Rectification	
8 Handover	
8.1 Data transfer	
8.2 Project Handover	
Appendix A (normative) System Acceptance Table	

Foreword

The entire technical content of this document is mandatory:

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part 1: Structure and Drafting Rules of Standardization Documents" drafted:

This document replaces GA 793.3-2008 "City Monitoring and Alarm Networking System Conformity Assessment Part 3: System Acceptance Specifications", and Compared with GA 793.3-2008, in addition to editorial changes, the main technical changes are as follows:

- a) changed the scope (see Chapter 1, Chapter 1 of the:2008 edition);
- b) Changed terms and definitions (see Chapter 3, Chapter 3 of the:2008 edition);
- c) Changed the organization and responsibilities of acceptance (see Chapter 5, Chapter 4

of the:2008 edition);

d) Changed the acceptance conditions (see 4.1, 4.2, 5:1~5:7 of the:2008 edition);

e) Changed the data review and acceptance (see 6.3, 6:1 of the:2008 edition);

f) Changed construction acceptance (see 6.1, 6:2 of the:2008 edition);

g) Changed the technical acceptance (see 6.2, 6:3 of the:2008 edition);

h) The acceptance of the basic functional performance and main technical indicators of the system is deleted (see 6.3:2 of the:2008 edition);

i) Deleted the management platform software function and performance acceptance (see 6.3:3 of the:2008 edition);

j) Deleted the monitoring center acceptance (see 6.3:4 of the:2008 edition);

k) Deleted the system safety and reliability acceptance (see 6.3:5 of the:2008 edition);

l) Changed the acceptance conclusion and rectification (see Chapter 7, Chapter 7 of the:2008 edition);

m) Changed the system handover (see Chapter 8, Chapter 8 of the:2008 edition);

n) Changed Appendix A (see Appendix A, Appendix A of the:2008 edition):

Please note that some content of this document may be patented: The issuing agency of this document assumes no responsibility for identifying patents:

1 Scope

This document specifies the acceptance conditions of the public security video image information system, the organization and responsibilities of the acceptance, the implementation of the acceptance, the acceptance conclusion and rectification, handover, etc:

This document is applicable to the acceptance of public security video image information system:

2 Normative references

The contents of the following documents constitute essential provisions of this document through normative references in the text: Among them, dated citations documents, only the version corresponding to that date applies to this document; for undated references, the latest edition (including all amendments) applies to this document:

GB/T 28181 Technical requirements for information transmission, exchange and control of public safety video surveillance networking systems GB 50348-2018 Security Engineering Technical Standard GA 308 Safety Protection System Acceptance Rules GA/T 1399 (all

parts) Public Security Video Image Analysis System GA/T 1400 (all parts) Public Security Video Image Information Application System

3 Terms and Definitions

Terms and definitions defined in GB 50348-2018, GA/T 1399 (all parts) and GA/T 1400 (all parts) apply to this document:

4 Acceptance Conditions

4.1

Basic conditions After the construction of the project is completed, the requirements of the project contract are met, and the acceptance can be carried out after preliminary inspection and inspection:

4.2

Acceptance materials Before acceptance, the following acceptance materials should be submitted:

- a) Acceptance application: It should be signed/stamped by the construction unit, supervision unit and contractor for confirmation:
- b) Requirements task book: Prepared by the construction unit according to the approved feasibility study report:
- c) Project contract: It should include project name and content, technical and quality requirements, schedule requirements, contract amount and payment method, inspection Acceptance criteria and methods, personnel training, after-sales service, etc:
- d) Site investigation report: It should include the project name, survey time, participating units and personnel, project overview, survey content, survey records record etc:
- e) Project design plan and review comments: The design scheme should include design instructions, design and construction drawings, equipment material list, project pre-planning Calculation, construction requirements, etc., the construction unit or the superior competent department organizes the review, and issues the review opinion:
- f) Equipment and materials entry record and point inspection list: Including the date of entry and inspection, the name of equipment and materials, model/specification, production plant
