This part is the fifth part of GA 214.

This part replaces GA 324.3-2001 "Population Information Management Code Part 3. Application for Resident Identity Card Reason Code". This section Compared with GA 324.3-2001, the code changes from 1 bit to 2 bits, and the content is expanded accordingly.

This part was proposed by the Public Security Administration of the Ministry of Public Security.

This part is under the jurisdiction of the Computer and Information Processing Standardization Technical Committee of the Ministry of Public Security.

This section drafted by. Public Security Administration.

1 Scope

This section specifies the code for the citizen to apply for the receipt, redemption, replacement and replacement of the identity card.

This section applies to the management of identity cards of public security organs at all levels.

2 Coding method

This section uses a 2-digit code, with the first digit representing the major class and the second digit representing the minor class.

3 Code table

Code name description
