Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces GA 268-2009 "Post-mortem Examination of Road Traffic Accidents". Compared with GA 268-2009, in addition to editorial changes, the main technical changes are as follows.

- Revised the "Scope" (see Chapter 1, Chapter 1 of the 2009 edition);
- Added "normative references" (see Chapter 2);
- Deleted "road traffic accident fatalities", "inspection and appraisal", "appraisal agency", "inspection report", "appraisal conclusion", Terms and definitions ", "rolling injury "(see Chapter 2 of the 2009 edition);
- Added terms and definitions of "road traffic accident injury methods" (see 3.1);
- Added terms and definitions of "characteristic injury" (see 3.2);
- The definition of "impact injury" has been modified (see 3.3, 2.7 of the 2009 edition);
- The definition of "bumper damage" has been modified (see 3.4, 2.9 of the 2009 edition);
- Added definition of "crush injury" (see 3.5);
- The definition of "seat belt damage" has been modified (see 3.7, 2.12 in 2009);

- The definition of "whip-like injury" has been modified (see 3.8, 2.13 of the 2009 edition);
- The definition of "stretch wound" has been modified (see 3.9, 2.14 in 2009);
- Added terms and definitions of "secondary damage" (see 3.11);
- Added terms and definitions of "transport behaviors" (see 3.12);
- Revised the "General requirements" (see Chapter 4, Chapter 3 of the 2009 edition);
- Added "main tasks of autopsy" (see Chapter 5);
- The standard structure has been modified (see Chapter 6, Chapters 5, 5, 6, and 7 of the 2009 edition);
- "Forensic Site Investigation" has been modified (see Chapter 6.1, Chapter 4 of the 2009 edition);
- Revised the "mortem table inspection" (see Chapter 5.2.1, Chapter 5 of the 2009 edition);
- Amended the "Autopsy Examination of the Escaped Corpse" (see 6.2.2, 2009 version 7.6);
- The "Autopsy examination of unknown corpses" has been modified (see 6.2.3, 7.7 of 2009 version)-Revised "anatomical examination" (see Chapter 6.3, Chapter 6 of the 2009 edition);
- Added "necropsy caused by secondary injury" (see 6.3.3);
- Added "Analysis of Traffic Behavior Modes" (see Chapter 7);
- Added "virtual anatomy" (see Chapter 8);
- Deleted "Content of Autopsy Examination of Traffic Accidents with Multiple Deaths" (see 7.8 of the 2009 version);
- Added "Common methods for extracting test materials from body surface puncture" (see Appendix A);
- Added "Inspection and Determination of Characteristic Injuries to Traffic Accidents" (see Appendix B).

This standard was proposed and managed by the National Technical Committee for Road Traffic Management Standardization (SAC/TC576).

1 Scope

This standard specifies the requirements, tasks, contents and methods for the corpse examination of persons killed in road traffic accidents.

This standard applies to the cadaver examination of the deaths of road traffic accidents. Examination of the corpses of traffic accidents that occur off roads may Reference

execution.

2 Normative references

The following documents are essential for the application of this document. For dated references, only the dated version applies to this article Pieces. For undated references, the latest version (including all amendments) applies to this document.
