Foreword

All the technical contents of this standard is mandatory.

Since the implementation of this standard replaces GA 360-2005 "uniforms combed wool-polyester blended textile material." this standard GA 360-2005 compared to major changes are as follows.

- Combed wool-polyester mixed textiles modified varieties and specifications;
- Increase the standard number;
- Increased elastic elongation, of the non-return index;
- Remove the fat-containing target rate;
- Improve the washing fastness, perspiration fastness, rubbing fastness, color fastness to hot pressing and deformation index fell into the water;
- Increased security requirements, the provisions of the free formaldehyde content and pH indicators;
- Modify the inspection rules.

This standard was proposed by the Ministry of Public Security Equipment Finance Bureau.

This standard by the Ministry of Public Security Special Police Equipment Standardization Technical Committee.

This standard was drafted. MPS Equipment Finance Bureau, Ministry of Public Security Special Equipment Quality Supervision and Inspection Center, Jiangsu Sunshine Group Co., Woolen Co., Ltd., Jiangsu arrow deer.

1 Scope

This standard specifies the uniforms of combed wool-polyester blended textile requirements, test methods, inspection rules, marking, packaging, transportation and storage.

This standard applies to uniforms mixed with combed wool-polyester textile production, testing, acceptance and order.

2 Normative references

The following documents contain provisions which, through reference in this standard and become the standard terms. For dated references, subsequent Amendments (not including errata content) or revisions do not apply to this standard, however, encourage the parties to the agreement are based on research Whether the latest versions of these documents. For undated reference documents, the latest versions apply to this standard.
