Foreword	
1 Scope	
2 Normative references	
3 Requirements	
3.1 Structure and style	
3.2 Model size	
3.3 Main materials	
3.4 Craftsmanship and finishing	
3.5 Sensory quality	
3.6 Physical properties	
3.7 Limited substances	
4 Test method	
4.1 Sensory inspection	
4.2 Physical properties, material inspection and restricted substances	
5 Inspection rules	
5.1 Inspection classification	
5.2 Type inspection	
5.3 Delivery inspection	
5.4 Defect classification	
5.5 Batching and sampling	
5.6 Qualification judgment	
6 Identification, packaging, transportation and storage	
6.1 Identification	
6.2 Packaging	
6.3 Transportation and storage	
Appendix A (Normative) Technical Requirements for Shoe Last Dimensions	
Appendix B (Normative) Technical Requirements for Outsole	
Appendix C (Normative) Technical requirements for shrouds	
Appendix D (Normative) Key Processing Equipment	
Appendix E (Normative) Packaging Technical Requirements	
Appendix F (Normative) List of aromatic amines that are not allowed to be decomposed from dyes under reducing conditions	

Foreword

All technical content of this document is mandatory.

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part 1: Structure and Drafting Rules of Standardization Documents" Drafting.

This document replaces GA 571-2010 "Police Shoes Women's Leather Sandals". Compared with GA 571-2010, except for structural adjustments and editorial changes in addition, the main technical changes are as follows.

- a) The structure and style of leather shoes have been changed (see 3.1, 3.1 in the 2010 edition);
- b) The technical requirements for leather shoe upper materials have been changed (see 3.3, 3.3 in the 2010 edition);
- c) Added leather softness requirements (see 3.3);
- d) The main heel and inner header materials have been changed (see 3.3, 2010 edition 3.3);
- e) Post-finishing requirements have been added (see 3.4.4);
- f) The physical performance requirements have been changed (see 3.6, 3.6 in the 2010 edition);
- g) The requirements for restricted substances have been added (see 3.7);
- h) Changed the defect classification (see 5.4, 5.4 of the 2010 edition);
- i) Changed batching and sampling (see 5.5, 5.5 in 2010 edition);
- j) The eligibility determination has been changed (see 5.6, 5.6 of the 2010 edition);
- k) Modified the technical requirements for shoe last size (see Appendix A, Appendix A of the 2010 edition);
- l) The technical requirements for outsoles have been changed (see Appendix B, Appendix B of the 2010 edition);
- m) The technical requirements for the shroud have been added (see Appendix C);
- n) Key processing equipment has been added (see Appendix D);
- o) Added the list of aromatic amines that are not allowed to be decomposed from dyes under reducing conditions (see Appendix F).

1 Scope

This document specifies the requirements, test methods, inspection rules and identification, packaging, transportation and storage of police shoes and women's leather sandals.

This document applies to police shoes and women's leather sandals.

2 Normative references

The content of the following documents constitutes an indispensable clause of this document through normative references in the text. Among them, dated quotations Only the version corresponding to the date is applicable to this document; for undated reference documents, the latest version (including all amendments) is applicable to this document.
