 - 8.3 Transportation
 - 8.4 Storage

Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard is proposed and managed by the Standardization Technical Committee of the Ministry of Public Security for the Application of Basic Standards for Social Public Safety.

1 Scope

This standard stipulates the product code, technical requirements, test methods, inspection rules, signs, packaging, and transportation of the resident ID card self-service forensics machine and storage.

This standard applies to the production, inspection, and acceptance of self-service forensic ID cards for resident ID cards. The self-service forensics machine for other public security documents can refer to use.

2 Normative references

The following documents are essential for the application of this document. For dated references, only the dated version applies to this article Pieces. For the cited documents without date, the latest version (including all amendments) applies to this document.

GB/T 191 Graphic mark for packaging, storage and transportation GB/T 2423.1 Environmental testing for electrical and electronic products Part 2: Test methods Test A. Low temperature GB/T 2423.2 Environmental Test for Electrical and Electronic Products Part 2: Test Method Test B. High Temperature GB/T 2423.3 Environmental Test for Electronic and Electrical Products Part 2: Test Method Test Cab. Constant Damp Heat Test GB/T 2828.1 Counting sampling inspection procedures Part 1: Sampling plan for batch-by-batch inspection retrieved by acceptance quality limit (AQL) GB/T 2829 sampling procedures and tables for periodic inspection and counting (applicable to the inspection of the stability of the production process) GB/T 4208-2017 enclosure protection level (IP code)

GB 4943.1-2011 Information Technology Equipment Safety Part 1: General Requirements
GB/T 9254-2008 Information technology equipment radio disturbance limits and measurement methods
GB/T 9969 General Instructions for Use of Industrial Products
GB 16796-2009 Safety requirements and test methods for security and alarm equipment
GB/T 17626.2-2018 Electromagnetic Compatibility Test and Measurement Technology Electrostatic Discharge Immunity Test
GB/T 17626.3-2016 Electromagnetic compatibility test and measurement technology RF electromagnetic field radiation immunity test
GB/T 17626.4-2018 Electromagnetic Compatibility Test and Measurement Technology Electrical Fast Transient Pulse Group Immunity Test
GB/T 17626.5-2008 EMC test and measurement technology surge (shock) immunity test
GB/T 17626.11-2008 EMC test and measurement technology Voltage sag, short interruption and voltage change immunity test
GA 374-2019 Electronic anti-theft lock
GA 450-2013 General technical requirements for desktop resident ID card reader
GA/T 1011-2012 General technical requirements for resident ID card fingerprint collector
GA/T 1012-2012 Technical Specification for Fingerprint Collection and Comparison of Resident ID Cards
GA 1461-2018 General technical requirements for police electronic equipment

3 Terms and definitions

GA 374-2019, GA 450-2013, GA/T 1011-2012 and GA/T 1012-2012 and the following terms and the definition applies to this document.
