Foreword

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

Instead of the standard GA/T 548-2005 "POLICE business-specific classification of fixed assets and the code", GA/T 794-2008 "basic POLICE Equipment Code "and GA/T 795-2008" POLICE basic equipment classification and code. " Since the implementation of this standard GA/T 548-2005, GA/T 794-2008 and GA/T 795-2008 annulled.

This standard as compared with the standard three main changes are as follows.

- Modify the standard name is "public security equipment asset classification and code";
- Increasing the classification principles of public security equipment assets (see Chapter 3);
- Modify the encoding method. Add code to the categories of assets and equipment code, the original code in classes and subclasses of the class code length 1 to 2 to increase the length of the code name equipment assets 4;
- Category of equipment and fixed assets and additions and deletions to the name of the actual situation.

This standard was proposed by the Ministry of Public Security Equipment Finance Bureau.

This standard by the Ministry of Public Security computer processing Standardization

Technical Committee and Information Technology.

This standard was drafted. MPS Equipment Finance Bureau, Beijing Municipal Public Security Bureau.

Introduction

This standard is based on GB/T 14885-2010 "fixed asset classification and code" for the early promulgation of the GA/T 548-2005 "public Security classification of fixed assets and business-specific codes ", GA/T 794-2008" POLICE basic equipment Code "and GA/T 795-2008" Public Key the equipment classification and code "integration amendment.

This standard follows the GB/T 14885-2010 classification principles in 7-bit encoding, based on the increase in 4-digit code, for public security equipment owned Name regulate production and refinement.

This standard lists only for GB/T 14885 in the category refinement of public security codes and equipment assets of its parent code, GB/T 14885 is not listed in category refinement equipment assets, this standard is no longer listed.

POLICE equipment and asset classification codes

1 Scope

This standard specifies the classification of assets and equipment of public security, codes and units of measurement.

This standard applies to public security equipment asset management, inventory, registration, statistics and related information application system construction work.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB/T 14885 Classification and codes for fixed assets GA/T 624.3 firearms management information - Part 3. firearms model code

3 Classification principles

POLICE EQUIPMENT asset classification principle subject to the provisions GB/T 14885 of.

4 Encoding method

The standard 5-layer 11-digit code indicates, first to 7 encoding method comply with GB/T 14885, wherein.

The first one represents categories, the first category represents 2,3, 4,5-bit representation, Class 6 and 7 indicates subcategories, 8 to 11 indicates expansion of the fine Head. The structure shown in Figure 1.

The first one represents categories xx the first category represented 2,3 xx 4th and 5th class representation xx Bits 6 and 7 represent subcategories xxxx 8 to 11 represent a breakdown

1 POLICE asset classification chart with codes constitutes the equipment the first one six categories represented by public security equipment assets classification codes are as follows.

- a) land, buildings and structures;
- b) general equipment;
- c) special equipment;
- d) artifacts and exhibits;
- e) books, archives;
- f) furniture, appliances, and loaded with animals and plants.
