Preface

1 Scope

2 Normative reference document

3 Terms, definitions and abbreviations

Foreword

This standard is drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces GA/T 645-2006 "video security monitoring system variable speed dome camera", compared with GA/T 645-2006, the main changes are as follows.

--- modified the standard name;

- modified scope (see Chapter 1, Chapter 1 of the 2006 edition);

- modified normative reference documents (see Chapter 2, Chapter 2 of the 2006 edition);

- modified the term "variable speed dome camera", "ball machine positioning accuracy", "area cover" (see Chapter 3, Chapter 3 of the 2006 edition);

- The term "variable speed pan/tilt", "hemispherical hood", "upper cover", "screen character display (OSD)" is removed (see Chapter 3 of the 2006 edition)

--- Added the term "target tracking" "Preset call speed" (see Chapter 3);

--- Added abbreviations;

- delete the composition (see version 4.1 of 2006);

--- modified the classification (see 4.1, 2006 4.2);

--- modified the logo (see 4.2, 2006 edition 7.1.2);

- modified hemispherical hood requirements (see 5.3.1, 2006, 5.2);

--- modified the ball machine speed indicators and grades (see 5.1.1, 2006 edition 5.3.1);

--- modified the video output requirements (see 5.3, 2006 5.4);

- modified power adaptation (see 5.4, 2006 5.5);

--- modified functional requirements (see 5.5, 2006 5.6);

--- modified the ball machine function classification (see Table 2, 2006 Table 5);

- modified electromagnetic compatibility (see 5.6, 2006, version 5.7);
- modified environmental adaptability (see 5.7, 2006 edition 5.8);
- increased security requirements (see 5.8);
- modified the test method (see Chapter 6, 2006, Chapter 6);
- Added inspection rules (see Chapter 7);
- modified signs, packaging, transportation, storage (see Chapter 8, 2006 edition of Chapter 7).

1 Scope

This standard specifies the classification and identification of variable speed dome cameras in video surveillance systems, technical requirements, test methods, inspection Rules and signs, packaging, transportation, storage and other technical requirements.

This standard is applicable to variable speed dome cameras in video surveillance systems.

2 Normative reference documents

The following documents are indispensable for the application of this document. For dated references, only the dated edition applies to this article Pieces. For undated references, the latest edition (including all modifications) applies to this document.

GB/T 2423.1 Environmental testing for electric and electronic products - Part 2. Test methods - Test A. Low temperature GB/T 2423.2 Environmental testing for electric and electronic products - Part 2. Test methods - Test B. High temperature GB/T 2423.3 Environmental testing for electric and electronic products - Part 2. Test methods - Test Cab. constant damp heat test GB/T 2423.5 Environmental testing for electric and electronic products - Part 2. Test methods - Test Ea and Guidance. Impact GB/T 2423.10 Environmental testing for electric and electronic products - Part 2. Test methods - Test Fc. Vibration (sinusoidal) GB/T 2423.18 Environmental tests - Part 2. Test methods Test Kb. Salt mist, alternating (sodium chloride solution) GB/T 2423.21 Environmental testing for electric and electronic products - Part 2. Test methods - Test M. Low pressure GB/T 2423.24-2013 Environmental tests - Part 2. Test methods - Test Sa. Simulated solar radiation on the ground and its test Guidance GB/T 2828.1-2012 Count Sampling Inspection Procedures Part 1.
