Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

This document replaces GA/T 963-2011 "Specifications for the Installation of Traffic Safety

Publicity and Education Facilities".

In addition to structural adjustments and editorial changes, the main technical changes are as follows.

- a) The scope has been changed (see Chapter 1, Chapter 1 of the 2011 edition);
- b) The classification of fixed publicity facilities and mobile publicity facilities has been deleted, and publicity material racks have been deleted (see 4.1, 3.1 of the 2011 edition);
- c) Added the specification requirements for electronic display screens and multimedia equipment (see 4.2.3~4.2.4);
- d) Added the specifications for traffic safety experience equipment and prompts (slogans) (see 4.2.6~4.2.7);
- e) The classification of traffic safety publicity and education facilities has been changed (see 5.1.1, 4.1.2 of the 2011 edition);
- f) Changed the setting requirements of traffic safety experience equipment (see 5.1.6, 4.1.6 of the 2011 edition);
- g) Changed the requirements for setting up traffic safety propaganda vehicles (see 5.1.7, 4.1.6 of the 2011 edition);
- h) Changed the requirements for the installation of traffic safety publicity and education facilities in vehicle and driver management service places (see 5.2, 2011 edition) 4.2);
- i) Changed the requirements for the installation of traffic safety publicity and education facilities at traffic accident handling sites (see 5.3, 4.3 of the 2011 edition);
- j) Changed the requirements for the installation of traffic safety publicity and education facilities at traffic violation handling sites (see 5.4, 4.4 of the 2011 edition);
- k) Added requirements for the installation of traffic safety publicity and education facilities at on-site education sites for full-score education and review education (see 5.5);
- l) Changed the requirements for the installation of traffic safety publicity and education facilities at traffic police enforcement stations (see 5.6, 4.5 of the 2011 edition);
- m) Changed the requirements for the establishment of traffic safety publicity and education facilities at traffic management service stations (rural traffic safety persuasion stations) (see 5.7, 4.6 of the 2011 edition);
- n) Added requirements for the establishment of publicity and education facilities at traffic safety publicity and education bases (see 5.8);
- o) Changed the requirements for setting up traffic safety publicity and education facilities along roads (see 5.9, 4.7 of the 2011 edition);

- p) Added requirements for the content of publicity and education at the on-site education sites for the full-score education for illegal demerit points and the review education (see 6.1.5);
- q) Added requirements for the publicity and education content of traffic safety publicity and education bases (see 6.1.8);
- r) Changed the requirements for publicity and education content along the roads (see 6.1.11, 5.1.7 of the 2011 edition);
- s) The requirements for updating wall (mountain) slogans and promotional materials have been deleted (see 5.2.4 and 5.2.6 of the 2011 edition);
- t) Deleted the maintenance requirements for wall (mountain) slogans, promotional materials, promotional material racks, and displays (see 5.3.3 to 5.3.6 of the 2011 edition);
- u) Changed the inspection and maintenance requirements for traffic safety experience equipment (see 6.3.6, 5.3.8 of the 2011 edition);
- v) Changed the annotation of the structure diagram of the publicity column (wall poster) (see Appendix A, Appendix A of the 2011 edition);
- w) The requirements for setting up traffic safety publicity and education facilities in other places have been changed (see Appendix B, Appendix B of the 2011 edition).

1 Scope

This document specifies the classification, specifications, installation requirements, content, updating, and maintenance requirements of road traffic safety publicity and education facilities.

This document is applicable to vehicle and driver management services, traffic accident handling, traffic violation handling, violation point full score education and review and education on-site education, traffic police enforcement stations, traffic management service stations (rural traffic safety persuasion stations), traffic safety publicity and education bases, and road Traffic safety publicity and education facilities shall be set up along the road. The traffic safety publicity and education facilities in other places shall be set up for reference.

2 Normative references

The contents of the following documents constitute essential clauses of this document through normative references in this document.

For referenced documents without a date, only the version corresponding to that date applies to this document; for referenced documents without a date, the latest version (including all amendments) applies to this document.

GA/T 980 Technical requirements for police propaganda vehicles (traffic safety education) equipment
GA/T 1050 Automobile safe driving education simulation device
GA/T 1263 Guidelines for the Construction of Road Traffic Safety Publicity and Education Bases

3 Terms and definitions

The following terms and definitions apply to this document.

Tools, carriers and equipment used for road traffic safety publicity and education.

4.1 Classification

Road traffic safety publicity and education facilities (hereinafter referred to as "publicity and education facilities") mainly include: slogan boards, banners, propaganda columns (wall newspapers), publicity boards, electronic display screens, multimedia equipment, audio playback equipment, traffic safety experience equipment, accident wreckage car booths, traffic safety Promotional vehicles, etc.

Note: slogan boards include slogans on roadside walls and mountains.

4.2.1 Bulletin Board (Wall Poster)

Fixed on the ground or wall, it consists of a brow and a main body. The brow should be more than 0.25m high, and the main body should be 2.5m long and 1.25m high.

For a schematic diagram of the bulletin board (wall poster) structure, see Figure A.1 in Appendix A.

Note: The main body refers to the part of the bulletin board (wall poster) used to post, draw and display traffic safety publicity and education content.
