

ICS 65.060.20

CCS B 91

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB 10395.9-2014

Replacing GB 10395.9-2006

**Machinery for agriculture and forestry -- Safety -- Part 9:
Equipment for sowing**

农林机械 安全 第9部分：播种机械

(English Translation)

Issued on: July 24, 2014

Implemented on: May 1, 2015

**Issued by: General Administration of Quality Supervision, Inspection and
Quarantine of the People's Republic of China, Standardization
Administration of the People's Republic of China**

Table of Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and Definitions

4 Safety requirements and/or protective measures

4.1 Basic requirements

4.2 operating mechanism

1 --- planter outer boundary;

2 --- should not be set manually operable regional bodies;

3 --- forward direction;

4 --- mount point machine (if any).

1 --- planter outer boundary;

2 --- around under mount points;

3 --- operating mechanism should regional settings.

4.3 rotating and folding member

4.4 bins

4.5 loading

1 --- loading station;

2 --- stairs;

3 --- bins;

4 --- ground.

4 loading table size

1 --- bins;

2 --- loading station;

3 --- stirring or screw conveyor device area;

4 --- bins open contour;

5 --- bin width;

6 --- loading station;

7 --- sowing unit.

4.6 Seeder

4.7 Fan

- 4.8 Displacement calibration system
- 4.9 hook and clearance range
- 4.10 Noise
- 5 safety inspection requirements or protective measures
- 4.7 sqrt - -
- 4.8 sqrt - -
- 4.9 sqrt sqrt -
- 6 Use Information
- 6.1 User's Guide
- 6.2 Safety signs and instructions symbol

Foreword

All technical content in this section is mandatory.

GB 10395 "Forestry Machinery Safety" is divided into the following sections.

- Part 1. General;
- Part 2. Dump trailer;
- Part 3. manure applicator;
- Part 4. Forest winch;
- Part 5. driven garden equipment;
- Part 6. Equipment for crop protection;
- Part 7. Combine harvesters, forage and cotton harvesters;
- Part 8. Irrigation pumps and crew;
- Part 9. Seed Drill;
- Part 10. hand (micro) tiller;
- Part 11. Power lawn mower;
- Part 12. Portable powered hedge trimmers;
- Part 13. - behind and hand-held lawn trimmers and lawn edge trimmers;
- Part 14. Powered Shredders and shredding machine;
- Part 15. power with rigid cutting means trimmer;
- Part 16. Potato harvester;

- Part 17. Beet harvesters;
- Part 18. traction winch sprinkler hose;
- 19 parts. center pivot irrigation machines, and translation;
- Part 20. pickup balers;
- Part 21. Power tedders and rakes;
- Part 22. pre-loading device;

This section GB of Section 910 395.

This section drafted in accordance with GB/T 1.1-2009 given rules.

This Part replaces GB 10395.9-2006 "Tractors and machinery for agriculture and forestry - Safety requirements - Part 9. Equipment for sowing, planting and fertilizing mechanical".

This section compared with GB 10395.9-2006, major changes as follows.

--- Original standard name "Tractors and machinery for agriculture and forestry - Safety requirements - Part 9. Equipment for sowing, planting and fertilizing machinery" was changed to

"Agricultural and forestry machinery - Safety - Part 9. Seed Drill";

- Increasing the standard introduction;
- Preface clear specification models, increased security requirements and compliance determination method;
- Increasing the terms and definitions;
- Increasing the safety requirements of the operating mechanism;
- Increased power driven rotating or moving parts fold safety requirements;
- Refine the loading dock safety technical requirements;
- Artificial increase in the loading position into the maintenance position or ladder safety requirements;
- Increasing the fan requirements;
- Increased noise reduction requirements;
- Increased security requirements and compliance determination method.

This part redrafted Law Amendment uses ISO 4254-9.2008 "Agricultural machinery - Safety - Part 9. Drills."

This part of ISO 4254-9:2008 technical differences and the reasons are as follows.

--- On normative references, this part has been adjusted technical differences, in order to adapt our technical conditions, the adjusted situation

Focus is reflected in the status of Chapter 2, "Normative references", the specific adjustments are as follows.

- Modify with international standards of GB 10395.1-2009 instead of ISO 4254-1:2008;
- equivalents adoption of international standards GB/T 15706-2012 instead of ISO 12100-1:2003, ISO 12100-2:2003;
- equivalents adoption of international standards GB 23821-2009 instead of ISO 13852:1996;
- equivalents adoption of international standards GB/T 25078.1 instead of ISO /T R11688-1:1995;
- equivalents adoption of international standards GB/T 25078.2 instead of ISO /T R11688-2:1998.

Editorial changes.

Consistent with the existing standard series, the standard name will be changed to "agricultural and forestry machinery - Safety - Part 9. Seed Drill";

--- Delete references [1] ISO /T R11688-2, acoustic practice low noise machinery and equipment design - Part 2. Physical

Learn low-noise design entry.

This part is proposed by China Machinery Industry Federation.

This part of the National Standardization Technical Committee (SAC/TC201) Agricultural machinery centralized.

This section drafted by. Chinese Academy of Agricultural Mechanization Sciences, Modern Agricultural Equipment Co. Limited service.

Introduction

Machinery safety standard framework for.

a) A Class standard (basic safety standards) give basic concepts apply to all mechanical, design principles and general characteristics.

b) Class B standards (generic safety standards), the provisions of a security feature or mechanical specifications of a wide class of security guards;

Bl --- class, specific security features (such as. safety distance, surface temperature, noise)
