Foreword

The standard six 5.2.1.1,5.2.1.2,5.2.1.3,5.2.1.4,5.7.7,

5.8.3.3 content of the mandatory provisions. The remaining articles Is recommended. This standard replaces GB 17733.1-1999 "place name sign urban and rural areas." This compared with the standard GB 17733.1-1999 "place name sign urban and rural areas", the main changes are as follows:

- The standard name changed to "signposts";
- Terms and definitions in the chapter, delete the place name signs, street signs, Lane boards, building licensing, building numbers five terms, increasing names, toponyms Chi two terms (Excerpts Chapter 3; Chapter 3 edition 1999);
- Terms and definitions in the chapter, delete the code section (Chapter 3 edition 1999);
- Classification chapter, remove the model part (Chapter 4 of the 1999 edition);
- Classification chapter, GB 17733.1-1999 include only residential signposts in the street, alley, building, door signposts, this standard Type signposts increased to human geography and physical geography entities signposts entities signposts, where real human geography Body signposts include. residential signposts, signposts administrative regions, specialized area signposts, signposts facilities, as well as Memorial and tourist signposts, signposts natural geographical entity comprising. Sea signposts, signposts River, land topography Mark (Chapter 4 of this edition; Chapter 4 edition 1999);
- Demanding chapter, changed the colors, sizes and appearance requirements of the signposts (Excerpts 5.4,5.5,5.6; 1999 edition The 5.2,5.4,5.5);
- Requiring a chapter, delete pages, writing requirements (5.1, 5.3 edition 1999); increased signposts settings within the layout Content, layout

requirements (Excerpts 5.1,5.2,5.3);

--- Demanding chapter, modify the basic performance requirements of the signposts of (this version 5.7; version of 1999 5.6.1,5.6.2,5.6.3, 5.6.4,5.6.5), modify the special performance requirements for reflective signposts and signposts of long afterglow (Excerpts 5.8.1, 5.8.2; 5.6.6,5.6.7 1999 version), delete the electroluminescent signposts of special performance requirements (1999 version 5.6.8), increase Plus the special performance requirements for LED name signs, signposts and metal corrosion stele signposts of formula (Excerpts 5.8.3, 5.8.4,5.8.5);

--- Demanding chapter, adds support means, place names direction signs, external lighting equipment requirements of the signposts (edition 5.9, 5.10,5.11);

--- In a chapter test method, modify the appearance of the inspection and test method (edition 6.2; 1999 version 6.1), salt spray corrosion resistance Test Method (edition 6.3; 1999 version 6.3.4), heat-resistant performance test method (edition 6.4; 1999 edition 6.3.5), weather resistance test method (

6.7 Excerpts; 1999 version 6.3.2), radiated performance test method (edition 6.8; Version

1 Scope

GB 17733-2008 is the Chinese national standard on geographical names - signs, in the field of generalities, terminology and documentation. It carries no /T suffix, which in the Chinese system means compliance is mandatory: a product or a practice within its scope has to meet it to be lawfully made, sold or carried out in China. It was issued on 23 April 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 August 2008. Classification: ICS 01.080.10, CCS P50. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the definitions of terms signposts, classification, requirements, test methods, inspection rules, and packaging. This standard applies to the signposts of production, distribution, use and supervision and inspection.

2 Normative references

The following documents contain provisions which, through reference in this standard and become the standard terms. For dated references, subsequent Amendments (not including errata content) or revisions do not apply to this standard, however, encourage the parties to the agreement are based on research Whether the latest versions of these documents. For undated reference documents, the latest versions apply to this standard.
