1 Scope

GB 3796-2018 is the Chinese national standard on general rule for packing of pesticides, in the field of agriculture. It carries no /T suffix, which in the Chinese system means compliance is mandatory: a product or a practice within its scope has to meet it to be lawfully made, sold or carried out in China. It was issued on 28 December 2018 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 January 2020. Classification: ICS 65.100, CCS G23. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the packaging category, packaging technical requirements, test methods, inspection rules and pesticide packaging waste recycling of pesticide products. This standard applies to the packaging of pesticide products.
