What this standard covers

This standard applies to the general layout design of new construction, reconstruction and expansion of ammunition factories. In order to meet the security and confidentiality requirements of national defense and military industries, the ammunition factory and surrounding buildings and facilities shall not only comply with the external distance regulations of this standard, but also comply with the national confidentiality regulations. The general layout design of the ammunition factory shall not only conform to the provisions of this standard, but also conform to the provisions of the current relevant national standards.
