What this standard covers

This Chinese standard relates to electrosag remelting furnaces (hereinafter referred to as electrosag furnace) relating to personal devices Particular requirements for safety. This standard applies to by direct heat conductive slag remelted or refined metal electric devices. This standard should GB 5959. 1-2005"electric plant safety Part 1: General requirements"in conjunction. This standard of the test methods according to GB/T 10066. 1-2004"Test methods for electric devices Part 1: General Parts"and 68/T 10066. 8-2006"electric device test methods Part 8

Document data

International classification (ICS): 25.180.10.

Chinese classification (CCS): K61.

Estimated length of the Chinese original: 12,196 words.

Adopted international standard: IEC 60519-8-2005, IDT.

Supersedes the earlier edition GB 5959.8-1989.
