**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB 6675.11-2014

Replacing GB 6675.11-2014

**Safety of toys - Part 11: Swings, slides and similar activity toys
for indoor and outdoor family domestic use**
(English Translation)

Issued on: December 31, 2025

Implemented on: November 1, 2026

**Issued by: State Administration for Market Regulation, Standardization
Administration of China**

Table of Contents

Preface	
Introduction	
1.Scope	1
2 Normative References	1
3.Terms and Definitions	1
4 Requirements	6
4.1 General requirements (see Appendix A, A.4)	6
4.2 Fence (see A.7)	10
4.3 Step ladders, treadmill ladders and stairs	11
4.4 Clamping (see A.8)	13
4.5 Stability of other active toys besides slides, swings, and toys with crossbeams	15
4.6 Slide (see A.9)	16
4.7 Swings and other movable toys with crossbeams (see A.10)	19
4.8 Seesaw	24
4.9 Carousels and rocking toys (see A.14)	25
4.10 Inflatable toys (see A.15)	25
4.11 Wading Pool	27
5 Warnings and Signs	27
5.1 Mark	27
5.2 Assembly and Installation Instructions	28
5.3 Operating Instructions	28
5.4 Maintenance Instructions	29
5.5 Warning	29
6.Test Method	31
6.1 General Rule	31
6.2 Stability	31
6.3 Static strength	39
6.4 Dynamic strength of the fence (see 4.2)	41
6.5 Determination of impact of the oscillating element (see 4.7.5.2)	42
6.6 Head and neck crush test	46
6.7 Sling test (see 4.4.2)	51
6.8 Protrusion Test (see 4.1.6)	54

6.9 Durability testing of suspension connectors and suspension devices (see 4.7.9)	57
6.10 Inflatable activity toy deflation test	58
6.11 Static Load Testing of Non-Inflatable Wall Wading Pools (See 4.11.2).....	59

Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1. Structure and Drafting Rules of Standardization Documents".

Drafting.

The various parts of GB (GB/T) 6675 "Toy Safety" and GB/T 19865 "Safety of Electric Toys" together constitute the supporting toy safety standards.

system.

This document is Part 11 of GB (GB/T) 6675 "Toy Safety". GB (GB/T) 6675 has already published the following parts.

---Part 1. Basic Specifications;

---Part 2. Mechanical and Physical Properties;

---Part 3. Flammability;

---Part 4. Migration of Specific Elements;

---Part 9. Experimental toys for chemical and similar activities;

---Part 10. Smell Board Toys, Makeup Kit Toys, and Taste Toys;

---Part 11. Household swings, slides and similar indoor and outdoor play toys;

---Part 13. Chemical Toy Sets (excluding laboratory toys);

---Part 14. Requirements and testing methods for finger paints.

This document replaces GB 6675.11-2014 "Toy Safety Part 11. Household Swings, Slides and Similar Indoor and Outdoor Activities"

Compared with GB 6675.11-2014, the main technical changes in "Toys" are as follows, apart from structural adjustments and editorial modifications.

---The scope has been expanded to include "inflatable activity toys" and swimming pools deeper than 400mm have been excluded (see Chapter 1, 2014 edition).

Chapter 1);

---Changes have been made to "Active Toys" (see 3.1, 2014 edition 3.1), "Fence" (see 3.4, 2014 edition 3.4), and "Swing" (see

3.22 (see 3.17 of the.2014 edition) and the definition of "swings for toddlers" (see 3.23, 3.10 of the.2014 edition);

---Added "sloping surface" (see 3.6), "hand gripping component" (see 3.12), "hand holding component" (see 3.13), and "inflatable activity toy" (see 3.14).

3.16) Terms and definitions for "wading pool" (see 3.17) and "elastic properties" (see 3.19);

---Added "Materials" (see 4.1.1), "Hardware" (see 4.1.2), "Diameter of Ropes and Other Suspension Devices" (see 4.1.7), and "Extrusion"

"Points and shear points" (see 4.1.9), "Hand support. gripping and grasping components" (see 4.1.10), "Handrails and hand supports" (see 4.1.9).

4.3.2) Requirements for "Inflatable Play Toys" (see 4.10) and "Wait Pools" (see 4.11);

---Changes have been made to "fence" (see 4.2,.2014 version 4.2), "head and neck clamp" (see 4.4.1,.2014 version 4.4.1), and "slippery".

"Ladders" (see 4.6,.2014 edition), "Swings and other movable toys with crossbeams" (see 4.7,.2014 edition).

The requirements of the "seesaw" clause (see 4.8,.2014 edition);

---"Static strength" (see 4.1.3, 4.1.1 of the.2014 edition), "Fence" (see 4.2, 4.2 of the.2014 edition), "Beams, Swinging devices"

"Strength of suspension connectors and suspension couplers" (see 4.7.3, 4.7.2 of the.2014 edition), "Carousels and rocking toys" (see...)

Version 4.9 (2014 version 4.9) added content requiring compliance with the relevant requirements of GB 6675.2 after testing;

---Added requirements for the labeling of "wading pools" (see 5.2.3), "operating instructions" (see 5.3), and "warnings" (see 5.5);

---A "General Rule" (see 6.1) has been added to determine the number of users of active toys;

---Added "Stability of seesaws" (see 6.2.6), "Deflation test of inflatable toys" (see 6.10), and "Stability of non-inflatable wall wading pools"

Static load test (see 6.11), diameter of ropes and other suspension devices (see 6.12), measurement of the sliding section and exit section of the slide.

Test methods such as "quantity" (see 6.13);

---Changes have been made to "Stableness of the Slide" (see 6.2.3, 6.1.3 in the.2014 version) and "Determination of Impact of the Swinging Element" (see 6.5,.2014 version).

Test methods include 6.4 in the.2014 edition, the "lasso nail test" (see 6.7, 6.6 in the.2014

edition), etc.

---Implementation requirements for the standard have been added (see Chapter 7);

---Appendix A, "Principles," has been changed from normative to informative, and the chapter numbers have been changed to natural order (see Appendix A,.2014 edition).

A);

---The following have been removed. "Climbing and swing ropes, chains, and cables" (see A.4.1.5,.2014 edition) and "Suspension connectors and suspension devices".

(See A.4.7.8 in the.2014 edition) The content has been expanded to include "wading pool" (see A.3) and "minimum distance between the oscillating element and the ground".

(See A.13) and the contents of "Inflatable Toys" (see A.15);

---Added "Guidelines for Safety Labeling of Certain Types of Activity Toys" (see Appendix C).

This document is modified to adopt ISO 8124-4.2025 "Toy safety - Part 4.Household activity toys".

The technical differences between this document and ISO 8124-4.2025, and the reasons therefor, are as follows.

---The normative reference to ISO 7010.2019 has been removed to adapt to my country's technical conditions and increase operability;

---ISO 8124-1.2022 has been replaced by the normatively referenced GB 6675.2 (see Chapter 3, 4.1.2, 4.1.3, 4.1.8, 4.2, 4.7.3).

4.9, 4.11.2, 6.3.2.4, 6.3.3.3.1, 6.3.3.3.2, 6.4.3, 6.5.4.2), to adapt to my country's technological conditions and increase operability.

Actual nature;

---ISO 868 (see 4.1.9) has been replaced with the normatively referenced GB/T 2411 to adapt to my country's technical conditions and increase operability.

Actual nature;

---In accordance with the "Product Quality Law of the People's Republic of China", the product name, product standard number, safety warning, and safety information have been added to the "labeling".

Labelling requirements throughout the entire product lifecycle (see 5.1) are required to ensure product labelling complies with legal requirements;

---The phrase "wading pools that can be inflated to a depth of 300mm or more should have their packaging, assembly, and installation instructions included" has been removed from
