What this standard covers

This standard specifies: Determination of papermaking fiber length with polarization method method. This standard applies to: determination of a variety of pulp fiber length. Less than 0. 2mm-fiber fragments in this standard are not considered to be fiber, calculation results will not be included.

Document data

International classification (ICS): 85.040.

Chinese classification (CCS): Y30.

Estimated length of the Chinese original: 9,969 words.

Adopted international standard: ISO 16065-1-2001; MOD.

Supersedes the earlier edition GB/T 10336-1989.
