1 Scope

GB/T 10781.2-2022 is the Chinese national standard on quality requirements for baijiu - part 2: qingxiangxing baijiu, in the field of food technology. The /T suffix marks it as a

recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 11 July 2022 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 February 2023. Classification: ICS 67.160.10, CCS X61. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document specifies the requirements, test methods, inspection rules, marking, packaging, transportation and storage of Qingxiang liquor. This document is applicable to the production, inspection and sales of Qingxiang liquor.
