What this standard covers

This standard specifies the standard capacitor box (hereinafter referred to as the capacitor box) technical conditions, test methods, inspection rules and signs, packaging, storage and so on. This standard applies to the AC frequency from 20Hz ~ 1MHz, nominal capacity from 10^{-4}pF ~ 10^{12}pF smooth continuously variable capacitance box, single disk or disk Stepping decimal capacitor box and smooth continuously variable stepping decimal type style with a combination of capacitance box. This standard is not included in the instrument used to measure the bridge and device capacitance box.

Document data

International classification (ICS): 31.06.

Chinese classification (CCS): N25.

Estimated length of the Chinese original: 8,845 words.
