

ICS 83.18
CCS G 38

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 11177-1989

**Testing method for compressive shear strength of dowel joint
by inorganic adhesives
(English Translation)**

Issued on: March 31, 1989

Implemented on: January 1, 1990

Issued by: State Bureau of Technical Supervision

What this standard covers

This standard specifies the inorganic adhesive socket compression shear strength test specimen structure and size, sample preparation methods, test environmental conditions, test procedures and test results of the calculation method. This standard applies to the determination of inorganic adhesive dry socket homogeneous or heterogeneous metal cut compression strength.

Document data

International classification (ICS): 83.18.

Chinese classification (CCS): G38.

Estimated length of the Chinese original: 5,515 words.
