What this standard covers

This standard applies to a given type of flexible waveguide components, its main characteristics are given in Table 1 and Table 2. This standard does not apply to hybrid components made ??of hard and soft waveguide waveguide constituted, does not apply to such additional cooling devices have to withstand high internal pressures or special components.

Document data

International classification (ICS): 33.120.10.

Chinese classification (CCS): L26.

Estimated length of the Chinese original: 13,182 words.

Adopted international standard: IEC 60636-1979, NEQ.
