Foreword

This document is in accordance with the provisions of GB/T 1:1-2020 "Guidelines for Standardization Work Part 1: Structure and Drafting Rules for Standardization Documents" drafting: This document replaces GB/T 11601-2000 "Requirements for Inspection and Handover of Container Entry and Exit Stations": Compared with GB/T 11601-2000, except Apart from structural adjustments and editorial changes, the main technical changes are as follows:

- a) Change the term "inspection" to "container inspection", and "handover" to "container handover" (see 3:2, 3:3, 3:2,:2000 version 3:3);
- b) The regulations on external inspection items such as the surface of the box body, box seal, and cleanliness have been changed (see 4:2, 4:1 of the:2000 edition);
- c) The inspection item requirements for closed ventilated containers and insulated containers have been deleted (see 4:3 of the:2000 edition);
- d) Added inspection items for refrigerated containers (see 4:4);
- e) Change "gross weight" to "gross weight" (see 6:1:2, 6:1:2 of the:2000 edition);
- f) Change the information management requirements for the whole process of inspection and handover of containers entering and leaving the port (see Chapter 7, Chapter 7 of the:2000 edition): Please note that some contents of this document may refer to patents: The issuing agency of this document assumes no responsibility for identifying patents: This document is proposed and managed by the National Container Standardization Technical Committee (SAC/TC6): This document is drafted by: Water Transport Research Institute of the Ministry of Transport, Scientific Research Institute of the Ministry of Transport, Shanghai China Grain Logistics Co., Ltd: Division, Anhui Port Group Wuhu Co., Ltd:, Fujian Jinhang International Freight Forwarding Co., Ltd:, Shenzhen Institute of Standard Technology,

Shanghai International Port Service (Group) Co., Ltd., Shandong Port Qingdao Port Group Co., Ltd., and China Railway Tielong Container Logistics Co., Ltd: The main drafters of this document: Li Jichun, Zhang Haozhi, Zhang Lei, Liu Jianping, Han Qingyuan, Chen Xiaoxu, Ji Bin, Zou Ying, Gao Jun, Chen Zhiyong, Pan Yao, Zhao Jieting, Wang Jing: This document was first published in 1989, revised for the first time in:2000, and this is the second revision: Requirements for inspection and handover of containers entering and leaving port stations

1 Scope

GB/T 11601-2023 is the Chinese national standard on the requirement for inspection and exchange of container of port and station for in or out, in the field of packaging and distribution of goods. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 17 March 2023 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 July 2023. Classification: ICS 55.180.10, CCS A85. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document specifies the container inspection items, container inspection technical requirements, container handover technical requirements and information management requirements: This document is applicable to the inspection and handover of containers when they enter and leave the port:

2 Normative references
