What this standard covers

This standard specifies the A3a, A3b, A3c and A3d class multimode fiber geometry parameters, optical and transport properties, mechanical and environmental performance requirements. This section applies to short-distance communication cables and other equipment used in information transmission multimode fiber (typical length to 1 km).

Document data

International classification (ICS): 33.180.10.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 7,749 words.

Adopted international standard: IEC 60793-2-30-2002, MOD.

Supersedes the earlier edition GB/T 12357-1990 Partial.
